

WINTER SESSION 2011

FUTURE HEROES

Learn To Play Ice Hockey Program

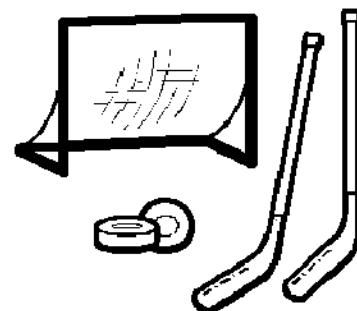

The Goal of The Program

The Ice Training Center is pleased to present the continuation of our Future Heroes learn to play hockey program. The goal of this program is to develop the interest and skills of young hockey players aged 6 & under. The ITC believes that we can accomplish the above through three solid principles: Skill Development, Teamwork, and Fun! As team and individual skills progress players will participate in cross ice games where they can showcase their individual skills. Enclosed you will find a description of our hockey program, program fees, and Player evaluation process.

12 week session to begin December 3rd, 2011

Program Breakdown

- 12 weeks of ice hockey
- 12 (1) hr practices

Week 5	January 14th
Week 6	January 21st
Week 7	January 28th
Week 8	February 4th
Week 9	February 11th
Week 10	February 18th
Week 11	February 25th
Week 12	March 3rd

Upcoming Session: March 17th

Divisions

All participants will be tested and placed into the proper division.

Majors

Players in the Major division will be able to skate across the ice unassisted, be proficient in or show beginnings of backwards skating, and be proficient in or show beginnings in stopping along with crossovers. Players will be provided with a patient and educational learning environment that emphasizes the importance of all basic skills. Players will be encouraged to push themselves to master their own individual skills and discover how to apply these skills in a team environment.

Minors

Players in the Minor division will focus on basic skating skills such as falling/getting up, marching on the ice, beginning swizzles, and most importantly confidence on the ice. Players will participate in fun games designed to utilize their new skills. The ultimate goal is for the Minor division players to be able to progress through the Majors program and then move on to our Mini-Mite program. Some individual players may progress and be able to participate sooner than others.
